

EBY CHACKO

Full stack software developer | Python | Django | Javascript | Bootstrap

E-mail : cybe1990@gmail.com | Mobile : +353 89 233 6291

I am a full-stack developer with expertise in **Python & Javascript**, along with experience in frameworks like **Django and Flask**. Currently, I am focused on **Artificial Intelligence and React.js**. My skill set also includes **jQuery, PostgreSQL, GitHub, Bootstrap, Figma, Photoshop and Agile methodologies**.

PORTFOLIO PROJECTS

1. FlyWheel Rent a Car ([GitHub](#) – [Live Website](#))

Booking Solution for a rental car company.

- Developed a complete booking system to allow users to browse, reserve, and pay for car rentals securely.
- Integrated Stripe for secure payments and ElephantSQL for robust, scalable database management.
- Deployed the project to Heroku with AWS support for data storage and backup.

Technologies Used : **Python, Django, JavaScript, Heroku, Bootstrap, AWS, Stripe, ElephantSQL**

2. True Care Hospital ([GitHub](#) – [Live Website](#))

Patient Booking management system

- Built a patient booking platform that allows patients to schedule appointments and view their medical history.
- Leveraged Django for secure authentication and database management, with **Bootstrap** for a responsive user interface.
- Deployed the solution on **Heroku**, with **ElephantSQL** as the database provider for scalability.

Technologies Used : **Python, Django, JavaScript, Heroku, Bootstrap, ElephantSQ**

COLLABORATIVE PROJECTS

1. Hackathon - December 2023 Hackathon - Code Institute ([GitHub](#) – [Live Website](#))

This was a group project, over a 3 days period. We created a fully functioning site based on christmas.

- Gained experience working in a fast-paced environment, collaborating with a team of developers
- **Conflict resolution** was the most challenging aspect of this project, requiring clear **communication and problem-solving skills**.
- As the lead designer, I was responsible for creating all design elements using CSS.
- Contributed to JavaScript development, beyond my design role.

Technologies Used : **HTML5, CSS, JavaScript, Github, Heroku**

EDUCATION

1. Diploma in Full Stack Software Development (May 2023 – June 2024)

Code Institute (Specialisation : E-commerce Application)

Grade Achieved : **Distinction**

2. Bachelor of Computer Application (March 2012 – March 2015)

Ilahia College Of Arts & Science

Mark : 72 %

3. Master diploma in animation (Nov 2007 – Apr 2009)

Cochin cadd center

EXPERIENCE

1. Night Porter (Aug 2022 – May 2024)

Shearwater Hotel & Spa, Ballinasloe, Co-Galway, Ireland

As a Night Porter, I provided essential support to ensure smooth overnight operations.

My responsibilities included:

- Set-up the meeting rooms / function rooms for the upcoming functions.
- Assisting guests with check-ins, check-outs, and other requests to ensure a positive experience.
- Maintaining security and safety, Handling emergency situations and ensuring that issues were promptly addressed.

This role developed my **problem-solving skills, attention to detail**, and the ability to **remain calm under pressure** while providing excellent customer service. During this period I improved my Language skills.

2. Graphic Designer (Jan 2021 – Feb 2022 | June 2008 – May 2016)

Color Dots Flex and vinyl printing, Kerala, India

As a Graphic Designer, I was responsible for creating a wide range of visually compelling designs for various client needs.

My responsibilities included:

- Designing marketing materials such as flex banners, brochures, notices, flyers, and visiting cards.
- Creating custom designs for Wedding albums, wedding cards and invitations, ensuring a personalised touch for clients.
- Editing and producing videos for events, enhancing visual appeal through professional video editing techniques.

This role sharpened my **creativity, attention to detail, and proficiency in design tools**, while also allowing me to effectively manage multiple projects to meet client deadlines.

3. Sales Executive (June 2016 – June 2020)

Landmark International auto spare parts trading LLC, Sharjah, UAE

I initially joined the company as a Store Keeper. Due to my knowledge of computer systems and strong organisational skills, I was promoted to Sales Executive.

My responsibilities included:

- Selling auto body parts and consistently meeting or exceeding sales targets.
- Keeping detailed records of sales and managing accounts to track performance.
- Performing cashier duties, handling payments, and maintaining financial accuracy.

This role helped me develop **strong customer service, sales, and inventory management skills**, along with the ability to **work efficiently in a fast-paced environment**.
